

UNIVERSAL ACCESS TO ALL KNOWLEDGE INTERNET ARCHIVE :: 2005

Internet Archive's bookscanning makes it possible for books on shelves to become universally accessible on the web. The Archive hopes to provide the best creative works for scholars, students, and the public by archiving books as well as the web, movies, music, and software, and making them available online. Learn more about Internet Archive at www.archive.org.

Old Christmas, published in 1886 and illustrated by Randolph Caldecott, chronicles the American writer Washington Irving's nostalgic descriptions of Christmas traditions in 19th century England. This copy of *Old Christmas* was printed using Internet Archive's "book-to-book" process. Librarians from the University of California selected this book as an example of the best of American Fiction (in the public domain). Next, Internet Archive scanned it using the Scribe, their new book digitization system. Scanning *Old Christmas* was generously supported by Yahoo!, and printing was done by Lulu (www.lulu.com). Visit the digital version of this book at <http://www.archive.org/details/oldchristmas00irviarch>
